

**NEW!**

# NiTIn™

## NiTInol Sectional Matrix System

**The new cost-effective solution for tight contacts from Garrison!**

As the name implies, the new NiTin™ sectional matrix separator rings are made from a special formulation of NiTinol nickel titanium for super strength and resiliency. Rather than typical material used by other brands, NiTin™ is made with drawn-wire Nitinol which produces superior spring characteristics. Add in the PEEK® reinforcement on the bow of the ring and you've got a system that produces exceptional contacts for hundreds and hundreds of uses.

Drawn-wire nickel titanium for the ultimate in long life!

Proprietary heat-set processing increases strength and resiliency.

PEEK® (polyether ether ketone) super-polymer reinforcement reduces ring stretch.

Ultra-durable PEEK® tips are the strongest, longest lasting polymer tips on any ring.

Precisely engineered tip geometry allows NiTin™ to grip where others pop-off—all while reducing flash.

Smaller, less "bulky" design fits well in tight spots and is still stackable for MODs.

All Garrison products are covered by our six-month money-back guarantee. If you are not satisfied with your product, return the unused portion and we will issue a refund. It's that simple.

Dental Solutions

# The Complete NiTin™ System

## NiTin's drawn-wire nickel titanium rings are strong and resilient!

NTG400 Long Rings (black) are excellent for tall molars and for easy stacking on MODs

**\$195** pkg of 2 rings

NTG500 Standard Rings (white) are perfect for shorter teeth and next to rubber dam clamps.

**\$195** pkg of 2 rings

## Full contour matrix bands for ideal anatomy!

Similar in dimension to the top-of-the-line Composi-Tight® 3D Fusion™ matrix bands, NiTin™ bands are slightly stiffer to improve ease of placement and are an economical choice for a full curve band.

**50 ct packs \$60** each

## Classic G-Wedges™ for a gentle yet firm gingival seal!

The G-Wedge is the perfect complement to the simple and cost effective NiTin™ system.

**100 ct standard packs \$43** each

## Precision Instrumentation completes the NiTin™ system!

NTG-MRDF-100

**\$75**

Low profile tips simplify stacking on MODs with NiTin's smaller rings.

This surgical tissue forceps with its deep interdigitating teeth provide ample grip and tactile control for both band and wedge placement.

**\$23**

NTG-DF6-8

## Starter Kit NTG-KMG-01

- 1 Long NiTin™ Ring
- 1 Standard NiTin™ Ring
- 100 Assorted NiTin™ Matrices
- 100 Assorted G-Wedges™
- 1 NiTin™ Ring Placement Forceps
- 1 NiTin™ Band Forceps
